

## EXHIBIT 5 Missing Data

The screenshot shows a Microsoft Access window titled "Query1: Select Query". The window contains a query design grid for a table named "Vendors". The design grid has four columns and several rows. The first row lists the fields: Vendor Number, Vendor Name, Vendor Phone, and an empty cell. The second row lists the table: Vendors, Vendors, Vendors, and an empty cell. The third row is for sorting, with empty cells. The fourth row is for showing fields, with checkboxes checked for Vendor Number, Vendor Name, and Vendor Phone, and unchecked for the empty cell. The fifth row is for criteria, with "is null" entered in the Vendor Phone column. The sixth row is for an "or" condition, with empty cells.

Field:	Vendor Number	Vendor Name	Vendor Phone	
Table:	Vendors	Vendors	Vendors	
Sort:				
Show:	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Criteria:			is null	
or:
