

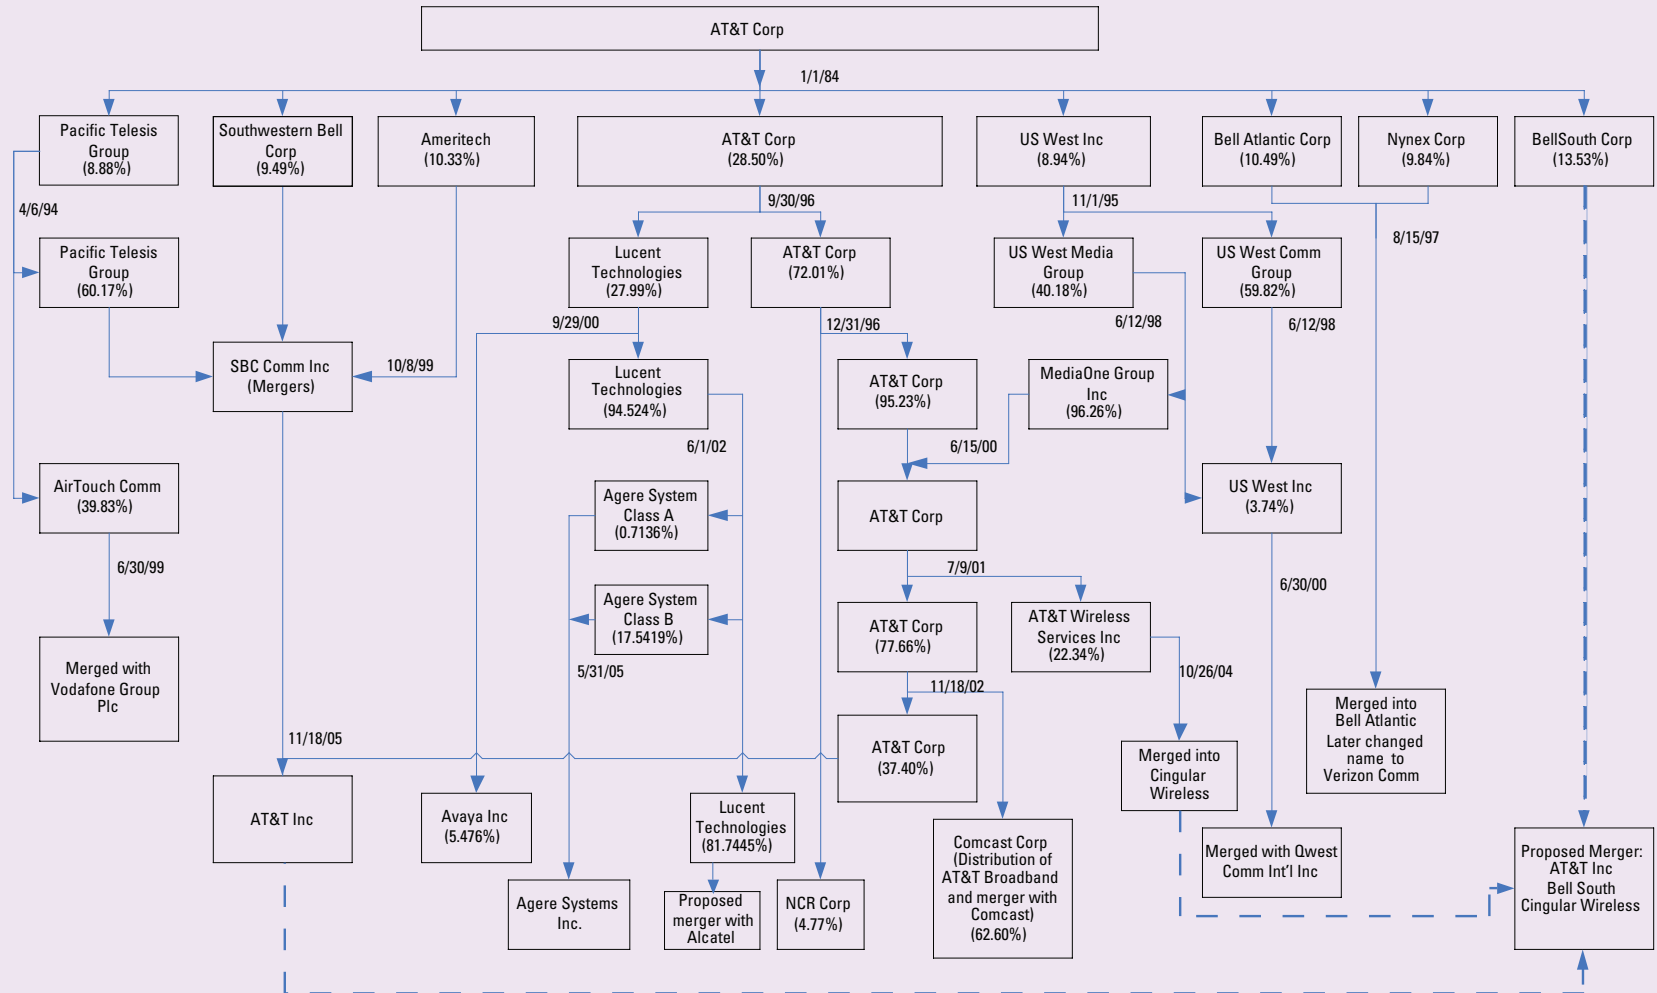

EXHIBIT 3 AT&T Lineage

Note 1: This exhibit is constructed primarily from data on the Internet that are believed to be reliable and should be used as a reference only.

Note 2: Generally, the percentages shown in each block are the percentages of the parent's total cost basis allocated to the new corporation. However, these percentages ignore the implications of: 1) the sale of fractional shares, and 2) the receipt of merger consideration, which vary by investor.
