**CCH ViewPlan® Advanced™**

**CCH ViewPlan® Advanced™**, is powerful, yet easy-to-navigate toolkit, that enables practitioners to graphically compare multiple estate planning scenarios. It generates customizable flowcharts, graphs, and reports that summarize planning scenarios for presentations. Modules cover mutual funds, stocks, variable annuities, closed-end funds, and separate accounts.

Its comprehensive estate planning speeds data entry and provides a quick view of charitable giving and other scenarios, supported with vivid graphs and text reports. Graphs, flowcharts, spreadsheet-like calculation reports, and easy-to-understand explanatory text can be arranged in customizable presentations, adaptable to virtually all planning options. A "calculations log" creates an audit trail to help avoid costly errors by presenting how the calculator arrived at given results and quickly identify possible input errors.

ViewPlan Advanced features integration with HotDocs, LexisNexis' document management system. Information such as contact name and title can now be shared between these two programs, saving you time. The ability to export data and reports to both Word (RTF) documents and PDF files enables you to attach and email documents to clients, making communications easier and more efficient. A new customizable disclaimer allows you to create up to four lines of text that can be printed on each output page. In addition, law and rate updates provide the latest state and federal law information.

The power of this application lies in its ability to present virtually an unlimited number of plans,

and compare up to three plans at a time to facilitate the presentation of optimal planning techniques to clients. It's a straightforward yet powerful wealth management tool.

## **How hot is Payroll Relief... Let users and experts tell you.**

"Payroll Relief is what makes payroll simple, as it is a robust system that allows me to offer a service to existing clients with the same features as major competitors... Offering payroll has created another profit center in our firm that nets \$150 per hour."

"I've found AccountantsWorld's offer to let me process a full year of unlimited payrolls for just \$997\* awesome. I've already migrated over 30 clients from ADP to Payroll Relief and I'm very happy with the switch."
