December 2006

Dear *CPA Journal* Subscriber:

Welcome to the NYSSCPA's 2007 CPA's Resource Guide. The Guide incorporates *The CPA Journal* annual index, previously published as part of the December issue. Combining the 2006 Annual Index with the Resource Guide allows *The CPA Journal* to deliver more of the articles with in-depth analysis that its readers have come to value. The stand-alone presentation also allows you to refer to the Annual Index more conveniently.

Use the Resource Guide to locate products and services you may require, you may be unaware of, or you may have reason to explore. The guide is divided into useful subsections, and should become part of the resources you reach for to improve and expand the value of your services.

The Resource Guide, updated all year long, is also available to you online at www.nysscpa.org. The CPA Journal Annual Index, and complete archives going back to 1989, can be accessed at www.cpajournal.com. We hope you will find them valuable.

Sincerely,

Mary-Jo Kranacher, MBA, CPA, CFE

ProSystem fx Profit Driver

ProSystem fx Profit Driver is a financial diagnostic and analytical solution that transforms client data into an interactive strategic planning tool, enabling professionals to instantly show their clients the outcomes of “what-if” scenarios and develop detailed plans for reaching goals. The program provides information that can help firms understand clients and better meet their needs, allowing them to compare business performance against industry standards with benchmarking data functionality.

Profit Driver allows professionals to analyze financial performance for up to 40 consecutive periods and highlight key trends. The program’s powerful reporting features include easy-to-understand graphical illustrations, informative analysis screens, and instant diagnostic reporting written in plain language.

Other features add even more value to Profit Driver. The Xpert feature helps to explain the most complex financial statement ratios and results, and a unique one-page financial scorecard transforms financial statements into one powerful screen with instant calculation of critical results and business drivers. Budget vs. Actual analysis helps firms perform projections as they create budgets, with just the click of a button.

Profit Driver integrates with ProSystem fx Tax Engagement and ProSystem fx Tax, as well as data in spreadsheet form.

For more information, call **1-800-PFX-9998** or visit us at **CCHGroup.com/profitdriver**.

ProSystem fx® Write-Up

ProSystem fx® Write-Up helps firms view and mine data to streamline the day-to-day management of their clients’ operations. Powerful reporting capabilities allow firms to accurately analyze their clients’ financial positions.

The program can also be customized so it works within the existing workflow. Transactions can be coded by departments, divisions, locations, and other categories. Information can be filtered and sorted for customized reports, and the menus and toolbars can be adjusted and personalized.

Write-Up includes a variety of tools to help firms expand their payroll businesses, including signature-ready payroll forms, ready-to-print 1099s, payroll and tax liability reports, and convenient payroll processing. Client bank accounts can be reconciled with one-click access to reveal current or past reconciliations.

Tightly integrated with other solutions offered in the ProSystem fx Office Suite, Write-Up lets end users export data to ProSystem fx Tax for quicker tax return preparation. Customized statements and reports can be exported to ProSystem fx Engagement and Trial Balance, and PDFs of statements and reports can be uploaded into ProSystem fx Document.

For more information, call **1-800-PFX-9998** (1-800-739-9998), or visit us at **CCHGroup.com/WriteUp**.

CCH ViewPlan® Advanced™

CCH ViewPlan® Advanced™, is powerful, yet easy-to-navigate toolkit, that enables practitioners to graphically compare multiple estate planning scenarios. It generates customizable flowcharts, graphs, and reports that summarize planning scenarios for presentations. Modules cover mutual funds, stocks, variable annuities, closed-end funds, and separate accounts.

Its comprehensive estate planning speeds data entry and provides a quick view of charitable gift-giving and other scenarios, supported with vivid graphs and text reports. Graphs, flowcharts, spreadsheet-like calculation reports, and easy-to-understand explanatory text can be arranged in customizable presentations, adaptable to virtually all planning options. A "calculations log" creates an audit trail to help avoid costly errors by presenting how the calculator arrived at given results and quickly identify possible input errors.

ViewPlan Advanced features integration with HotDocs, LexisNexis' document management system. Information such as contact name and title can now be shared between these two programs, saving you time. The ability to export data and reports to both Word (RTF) documents and PDF files enables you to attach and email documents to clients, making communications easier and more efficient. A new customizable disclaimer allows you to create up to four lines of text that can be printed on each output page. In addition, law and rate updates provide the latest state and federal law information.

The power of this application lies in its ability to present virtually an unlimited number of plans, and compare up to three plans at a time to facilitate the presentation of optimal planning techniques to clients. It's a straightforward yet powerful wealth management tool.

Web Site: CCHGroup.com/SalesTax

CCH, a Wolters Kluwer business, offers a complete selections of solutions to help make sales and use tax compliance – from front-end billing to back-office returns – a single, integrated task with complete and accurate results. Products include:

ZIPsales® Returns (ZSR)

This web-based solution offers outsourcing convenience with the ease of online accessibility for companies seeking sales and use tax efficiency. With ZSR, CCH stores their tax information in its secure servers and completes the forms. ZSR also lets them review, edit, print and audit tax returns from their desktop computers. Eliminated are the hassles of maintaining complex software or taking staff time for taxes while preserving timeliness and accuracy requirements.

CertiTAX™

For retailers with multi-state business or eCommerce activity, CertiTAX™ is a suite of software products that enables them to calculate sales taxes for different locations. With CertiTax Client, retailers can access the CertiCALC, CertiSHIP, and CertiFile databases online. The suite features the most up-to-date tax tables and sales tax laws. There is no software to maintain or updates to track, which saves merchants' time and headaches.

ProSystem *fx*® Tax

CCH's ProSystem *fx*® Tax provides full capabilities for all types of federal and state returns, including individual, partnership, corporation, fiduciary, estate and gift, deferred compensation, and exempt organization. It is the cornerstone of the ProSystem *fx* Office suite of software. Tax's leading technologies help professionals save time and work smarter.

Modules can be purchased individually or bundled to meet specific needs. ProSystem *fx* Tax performs automatic calculations, overrides and optimizations for every federal and state return. The industry's most comprehensive diagnostic system tests for omissions and inconsistencies, allowing users to jump back to related input with a single click.

Intuitive navigation panels, pop-up menus and "forms-stepping" features allow quick navigation through a return, and a comprehensive on-screen review system features color-coded tick marks, field and global notes, lists, overrides, and estimates.

The *e-filing* module enables individual, business, and specialty electronic filing. And a full array of value-added options help firms manage their practices, simplify return preparation, and provide revenue-generating services, like the Tax Notebook and Tax Library.

ProSystem *fx* Tax is tightly integrated with other ProSystem *fx* Office software, such as Write-Up, Fixed Assets, Profit Driver, and Engagement. It is also highly integrated with popular office software, like Microsoft® Excel® and Word®.

Official Payments. The Proven Way to Make Paying Taxes Pay.

Now you can help your clients make paying taxes pay. When your client makes a federal, state or local tax payment using an American Express[®], Discover[®], MasterCard[®], or Visa[®] Card, they may earn a point, mile or money back for each tax dollar paid. They may even gain a little extra time to pay.

Now consumers and small business owners can make both personal and business tax payments using a credit card. It's fast, secure and authorized by the IRS and the State of New York, and as easy as calling Official Payments Corp. at **1-800-2PAY-TAXSM (1-800-272-9829)** or visiting **www.officialpayments.com**.

Millions of consumer and small business taxpayers across the nation have entrusted Official Payments with making their personal and business tax payments. If helping your clients get the most out of paying their taxes sounds interesting to you, visit Official Payments at **www.officialpayments.com/taxprofessionals** to request complimentary information for you and your clients.

Official Payments is a wholly owned subsidiary of Tier Technologies, Inc. Official Payments charges a convenience fee for this service equal to 2.49% of the tax payment amount. Federal business taxpayers can deduct the fee as a business expense. Note: Federal tax deposit payments cannot be paid through this service. This service is also available for state personal and business taxes and fees in AL, AR, CA, CT, GA, IA, IL, IN, KS, LA, MD, MN, MS, NE, NJ, NY, OH, OK, OR, PA, RI, VA, WA, WI, WV and DC. Check with card issuer for reward points, miles, and money back terms, conditions and eligibility. Visit www.officialpayments.com for additional information and card participation.
